Honoring Our Most Senior Employees

By Anne Marie Mullin, CEO

For the past two years, it's been my honor and privilege to recognize, throughout the year, during the employee luncheons that I host, those employees who have reached milestone years-of-service with the company (5 – 10 – 15 years). I am thrilled to now draw special attention to 68 employees with 20 years of service. Considering that the company started with 224 employees, that's 30 percent of our initial workforce and roughly 16 percent of current employees!

I extend a profound thank you to the following employees:
